

Xavier Caldwell

Boise, ID | (208) 995-0788 | xvrianreed@gmail.com | <https://github.com/xaviercaldwell>

Summary

Adaptable developer with experience building web applications, working with SQL databases, and configuring Microsoft Azure services. Brings hands-on programming experience in Python, C#, JavaScript, and React, along with strong troubleshooting and problem-solving skills. Seeking a junior software development role to contribute to collaborative development and deliver reliable applications.

Work Experience

Ada County Highway District

Oct 2025 - Present

IT Service Desk Analyst

- Troubleshooting and resolving hardware, software, networking, and enterprise application issues
- Analyzing technical issues across different systems and data sources to identify root causes
- Work with internal organizational data, automate workflows, document solutions, and support business-critical IT systems while managing multiple deliverables.

Web Development Intern

May 2022 - October 2025

- Develop internal applications using HTML, CSS, Python, C#, and Microsoft's Power Platform, applying object-oriented programming concepts to support 5 departmental teams.
- Updated and maintained organization-wide intranet to reflect internal updates, announcements, and learning resources
- Configured Azure cloud services for API management, serverless functions, secure storage, and single sign-on
- Implemented a secure reverse proxy with Azure AD authentication to control internal resource access for 300+ users
- Design SQL Server 2019 database schemas with table keys and relationships, write queries for data retrieval, and create views to support internal applications.
